

**CORRECTION: FEMALE SECOND POLAR MOMENTS OF INERTNESS ARE RELATED
TO MAXIMUM PRECIPITATION IN FOREST RED MILLIPEDES *CENTROBOLUS COOK*, 1897**

M. Cooper
University of Johannesburg, South Africa.

International Journal of Engineering Science Invention Research & Development; Vol. 10, Issue 4, page 1-2. October 2023 www.ijesird.com, E-ISSN: 2349-6185.

III. RESULTS

Fig. 1 and **Fig. 2** legends both refer to correlations with maximum precipitation not minimum precipitation.

IV. DISCUSSION

"There is a correlation between second polar moments of area in both sexes and minimum precipitation" should be "There is a correlation between second polar moments of area in both sexes and maximum precipitation."
